

## STEM-Based Afterschool

### Homework/Phonics/Extra Packets

We provide quality homework help with consistent guidance and supervision. After homework, Students will focus on phonological awareness, phonics, fluency, vocabulary, and comprehension. The extra packet will be provided to increase the mastery of essential state-standards.

### Mandarin

Students are immersed in foreign language and learn in a small class setting. With fun and approachable technique, we make learning conversational Mandarin exciting for both native and non-native speakers. Children will engage in

### Etiquette/Life Skills

Children will participate in interactive songs, stories, and role play similar scenarios to practice their life skills with asking for help, interacting in public, setting boundaries, being polite, respectful, and problem solving. Students will learn skills that will impact them scholastically, socially and into their professional life.

### Article of the Week/Read-A-Loud

We will use this time to establish routine, interact with multicultural stories, and engage with each other during show-and-tell. It supports the development of socialization, listening skills, and fine and gross motor skills. Read-a-loud increases students' engagement, understanding, and appreciation of literature.

### Math Infinity\*/KMI Whole Brain Program

MI/KMI aims to foster students' good habits and attitudes towards learning, so that they will be leaders in the future. They are designed in K-2 that aims to lay a solid foundation for science study in the future, through **3D figures, logical reasoning, patterns, correspondence, and 3-way visual modeling**. They will develop critical thinking skills as they master **Common Core Standards**.

### Confident Voice \*

This class provides an energetic, warm, and theatrical environment to bring student's speaking skills to life—a skill that will translate to their school experience and communication abilities in life.
